This SGT 200 was installed in 1995 to provide power and heat. The turbine has been under a Siemens level 3 maintenance contract until 2005 and in 2006 the Gas Generator and Power Turbine were overhauled by Siemens.

We have access to all the Manuals and maintenance history of the plant.

Plant details:

Manufacturer Turbine	EGT
Type of turbine	SGT 200
Initial start up	1995
Output	6.44 MW
Fuel type	Natural Gas / light oil
Frequency	50 HZ
Package fired hours	90.416
Package starts, total	1837
Core fired hours since overhaul 06	1438
Shut down	2007
Rustronic Controls	Mark II

Engine details:

GG serial nr.	RT 123
PT serial nr.	RT 123
GG core exchange	11-2006

Gearbox details:

Manufacturer	Allen Gears
Had a major service in	2006
State	Running condition

Generator details:

Manufacturer	GEC Alsthom
Output	8750 kW (Data shield)
Voltage	10 kV
Frequency	50 Hz
Power factor	0,8
Speed	1500 RPM

Price for the GG and PT	To be agreed
Pricing	ex VAT, ex current location / plant installed
Availability	Available
Warranty	Depending on purchase / maintenance contract.
Conditions	STS terms and conditions apply
